**Feasibility**

**Tangible benefits from our technical solutions:**

At EMS-Tech Inc., we recognize the true value of being involved at project inception. In unison with our collaborative approach to finding solutions for our clients, we bring to the table a wealth of knowledge and applied technical experience. We create effective Return on Investment analysis and economic impact studies so our client can gain prompt approval and realize the project benefits sooner.

**Entrust us to leverage more return by:**

- ❖ A Collaborative investigative approach
- ❖ Development of the best technical solutions
- ❖ Evaluation of each solution opportunity
- ❖ Creation of Return on Investment (ROI) and economic studies
- ❖ Development of feasibility reports and appropriation requests

**Planning Management**

**Planning management for all phases of electrical projects.**

Planning management is the key to 'on time' and 'on budget' project success. At EMS-Tech Inc., we have a wealth of project management experience in all project phases. Our 'hands on' approach coupled with modern project management techniques and software applications ensure projects follow milestones and remain on budget.

**Our Project Managers:**

- ❖ Develop accurate budgets and procurement lists
- ❖ Develop realistic schedules and milestones to evaluate progress
- ❖ Monitor project status with current technology software applications
- ❖ Manage and report project progress and budget expenditures
- ❖ Supervise all stages of the project from the feasibility stage to the final release
